eTIMEMASTER™ 76 CM BATTERY WALK POWER MOWER POWERED BY FLEX-FORCE POWER SYSTEM™

PREPARE TO GET MORE OF YOUR DAY BACK

The 60V Max* 76 cm eTimeMaster mower helps you tackle more lawn in less time — 40% less mowing time, to be exact†. It also gives you the option of three active battery ports for up to 100 minutes of runtime, and AutoMatic Drive System that detects your pace and adjusts on the go.

IDEAL FOR

EXTRA LARGE GARDENS (1,000 M² +)

3 BATTERY PORTS WITH 1 MISSION: MORE RUNTIME.

Our powerhead comes with 2 x 10 Ah battery ports that give you up to 65 minutes of runtime and the ability to cut up to 2,590 m². Adding an optional third battery will boost runtime up to 100 minutes and lets you mow up to 4,450 m² all on a single charge.

* Battery manufacturer rating = 60V maximum & 54V typical usage. Actual voltage varies with load.

† Based on low speed in controlled laboratory testing of product. Run time varies with load.

† Time savings via wider cutting path and enhanced speed of eTimeMaster¹ vs. 55 cm Toro mower, and will vary due to mowing conditions.

EXTRA WIDE, EXTRA RUGGED.

Rely on our 76 cm wide all-steel deck and cast aluminium frame for years of durable use. It takes whatever your lawn dishes out, time after time. Plus, together with our Dual Force™ Cutting Technology—Toro's patented timed two-blade system—you'll slash your cutting time by 40%†.

MOW AT YOUR OWN PACE

Get a unique mowing experience! The AutoMatic Drive System senses and smoothly adjusts to your walking pace putting you in control of how fast you want to mow.
